ON-SITE WASTEWATER MANAGEMENT

On-Site Wastewater Management Systems are required for domestic wastewater management where mains sewer connection is not available. Harris Environmental Consulting has over 20 years' experience in on-site wastewater management and in preparing these reports.

We prepare reports for new dwellings, alterations and additions, granny flats, and commercial developments including caravan parks, function centres, tourist accommodation, shed and for subdivisions/boundary adjustments. We can advise on the options for on site wastewater management after we assess your site.

WASTEWATER OPTIONS COULD INCLUDE:

- AERATED WASTEWATER TREATMENT SYSTEM (AWTS) AND SEPTIC TANK TREATMENT SYSTEMS
- SPRAY OR SUBSURFACE IRRIGATION SYSTEMS
- SOIL ABSORPTION BEDS, TRENCHES AND COMPOST TOILET AND GREYWATER MANAGEMENT SYSTEMS
- SAND MOUND DISPOSAL SYSTEMS

OUR TEAM OF ENVIRONMENTAL ENGINEERS AND SCIENTISTS CAN ADVISE ON:

- Domestic on site wastewater management reports for single lots, subdivisions and commercial developments.
- Assess and design wastewater management systems for commercial developments including function centres, places of worship and restaurants.
- Non domestic wastewater management, including washdown wastewater from horse stables and wineries.
- Reports required to support changes to existing residences (additional bedrooms) or secondary dwellings and granny flats.
- Preliminary site investigations for pre-purchase or pre-lodgement of development application.
- Solutions for environmentally sensitive locations and small lots.
- Experience preparing WCMS in the drinking water catchment to meet WaterNSW requirements.
- Soil permeability testing and viral die off modelling, which may be required to support a reduction in buffer distances between wastewater disposal areas, assess cumulative impacts of support an application to install a groundwater bore.

WE PROVIDE FIXED QUOTES AND FOR RESIDENTIAL DWELLINGS. WE COMPLETE THE REPORT WITHIN 10 DAYS. WE PROVIDE SIMPLE, EASY TO READ REPORTS THAT ADDRESS THE MATTERS OF CONCERN TO THE OWNER, COUNCIL ASSESSOR AND INSTALLER.
